

Group assignment of CASA0007

~~[Updated on 2023/10/23]~~

~~Please find the final group assignment in [this OneDrive link](#) (you need to login to OneDrive using your UCL account), which is read-only.~~

~~The presentations will occur between 9am and 12pm on 13 December, Tuesday. There will be two sessions in two rooms (Torrington 1-17 and CASA 105).~~

~~The agenda will come out on 12 December via emails.~~

[Updated on 23 Oct 2023]

Please find the initial group assignment in [this OneDrive link](#) (you need to login to OneDrive using your UCL account) under the column of 'group_number'.

Groups have been assigned randomly. Most groups are of 4 but one randomly selected groups are of 3 as the number of students is not divisible by 4.

Just for fun:

The random group assignment can be reproduced using [this Python code](#) and [this csv file](#). Code reproducibility is important. You need to login to OneDrive using your UCL account to access these files.

****ACTIONS TO TAKE** (before 17:00, 17 November 2023, Friday, UK Time)**

Could everyone please meet your group mates (e.g. sending an email) and check if you are happy to work together.

If the answer is 'NO', please add a comment to the column of "Notes". We will try our best to adjust the groups to make your group work easier.

If you try connecting your teammates but don't hear from them within 48 hours, please also comment in the "Notes" column.

Apart from adding your comments, please DON'T change anything in this document.

Please keep this document confidential and only within this module.

If you have any questions, please send an email to huanfa.chen@ucl.ac.uk.
